Describe and furnish a map or sketch, when applicable, showing existing surface disturbances, structures, facilities, etc., and the location and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 AC. = 43,560 sq. ft.).

Proposed Completion Date *Ongoing*

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of non-operation is anticipated.

New work will be reclaimed & stockpiled topsoil at completion. Request posting of permanent restrictive sign "KEEP OUT" at area of operation for liability and public safety reasons. Wood sign can be used but painted rocks (dislodged

by mining) are best since they are not easily destroyed by rockhounds. Such rocks can then be destroyed or buried during reclamation.

I hereby declare that I, or persons I have authorized to do so, will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.
